

KEDEL

BRITISH RECYCLED PLASTIC PRODUCTS

Who are we? And what do we do?

We are a family run business who specialising in design and manufacture of children's outdoor furniture made from 100% British recycled plastic.

Our wide range of products are completely maintenance free, non-toxic and can be left outside all year round.

With our in-house design and manufacturing facilities we are able to produce fun, safe, colourful outdoor furniture and play equipment suitable for schools, nurseries, hospitals and home use.

Products

Here at Kedel we believe a playground can be a classroom, a garden can be a laboratory, and a piece of furniture can inspire your imagination.

Our range of outdoor recycled plastic classroom equipment, garden products and outdoor furniture are a 'must have' for any playground, park, or paddock.

Do you have your own ideas? We'd be delighted to hear them. We can design and produce bespoke products just the way you want them. Call us on 01282 861325.

Derwent Picnic Tables

Bright, Bold and Brilliant! The Derwent Range of recycled plastic picnic tables are available in Red, Yellow, Blue, Green, Black, White or Multicoloured, and in Junior, Adult and Extended sizes.

With UV stabilizers added in the moulding process these beautiful colours will not fade even in direct sunlight or when left outside all year round. 100% maintenance free, non-toxic, completely hygienic and food safe - the 'perfect' picnic table.

Ribble Picnic Table

These Ribble Picnic Tables, made from our recycled mixed plastic lumber, are heavy duty, sturdy and durable, made to withstand the British weather all year round. Available in adult and junior sizes

The Ribble Range are also available with multicoloured recycled plastic tops in sizes to suit all age groups. They are equally robust, will not fade, rot or warp and are guaranteed to last at least 5 times longer than treated wood.

Sometimes people with disabilities can feel left out of the group, which is why we designed a Ribble picnic table which better integrates everyone with convenient wheelchair access.

Also suitable for families with pushchairs.

All our Ribble picnic tables are available with extended legs so they can be sunk securely into concrete.

Convertible Art Table

This multi-use convertible table is an art easel when elevated and a multi use picnic table when flat.

As an easel it provides a comfortable work station for children to paint, draw and colour.

The metal fixings on the easel face can be used with magnets to hold paper in position. The storage space underneath can be used for paper, pencils and paints. This is the perfect table for little artists everywhere.

With one smooth motion the easel folds down flat and transforms into a multi use picnic table suitable for writing, games or eating lunch.

The High Density Polyethylene this easel is made from non-toxic, hygienic, stain resistant and can be easily cleaned with household detergent and water.

Kitchen Play Table

Here at Kedel we believe that creativity and imagination through role play is a vital form of learning, encouraging skills such as social bonding and manners.

The kitchen play table has place mats etched onto the surface so children can all sit round and play pretend restaurants being a waiter and going out for dinner.

The table top can be easily reversed, on the other side of the table top is an etched maze pattern for creative play.

Kids Picnic Table

Designed for children aged between 4 and 8 this little picnic table is perfect for the garden.

Made entirely out of recycled high density polystyrene it is maintenance free and guaranteed to last 5 x longer than treated wood.

Made from 100% recycled CD cases

340 x

340 CD cases are used to make this picnic table. The deluxe version (lower image) uses even more!

Hoola Table

This multi-use round table is designed so children can sit together in a group to socialize or work in a team.

It can safely stay outside all year round, is hygienic and easily wiped down with soap and water.

Delivered flat packed with easy assembly instructions to save on shipping costs.

Thames Multicoloured Range

BRAND

NEW!!

Why should

kids have

all the fun?

This Thames

multicoloured

range is

designed for

adults but

matches the

fun feel of

our children's

coloured

furniture.

Thames Garden Bench

Our plastic synthetic wood Thames Benches are made from recycled polystyrene. Available in Oak, Mahogany and bright colours. They look and feel like wood but without the drawbacks of regular painting and inevitable rot. They can stay outside all year round and will not fade, stain or warp.

The Adult Thames Bench is made from 540 recycled CD cases.

The children's Thames Bench (top right) is designed at the perfect height and angle for little legs. Just right for 4 to 8 year olds.

We also supply tailor made to fit cushions for our benches (pictured bottom right.)

Colne Bench

The Colne bench legs are made from recycled milk cartons and moulded into shape before the recycled polystyrene slats are fixed on top.

Available in multicoloured or solid colours red, yellow, green, blue and white tops.

Available with black or white moulded legs

Tees Bench

Our Tees benches are a simple, economic seating solution, available in adult and junior heights in combinations of different colours or as a single colour option. These tough little benches can bring an explosion of colour to any environment. Light enough to carry but heavy enough not to blow away in strong winds. Available in 2, 3 and 4 seater lengths.

Buddy Bench

Trying to talk to somebody at the other end of a bench can sometimes be difficult. Nobody wants to be left on the end out of all the fun! That's why we designed a curvy bench that lets everyone sit together in a cosy way.

Children love to look at the pictures while you're reading a story to them, and so we've made it easy for them. The Buddy Bench allows the reader a space in the middle with two children either side.

600 x

Make 1 Buddy Bench

Irwell Bench

The Irwell Benches are one of our street furniture ranges. These extremely sturdy, heavy duty benches have single piece moulded legs.

Made entirely from Recycled Mixed Plastic Lumber they are built to last over 40 years without any recurring maintenance costs.

Curved Roof Play House

A beautiful, brightly coloured, Play Den with fully covered roof, and holes for fixing plastic or cloth side curtains to keep out the wind.

Made entirely from recycled plastic (polystyrene and high density polyethylene) it will never rot or need any maintenance.

With added UV stabilisers these bright colours will not fade even if the den is left outside all year round.

Kid's Play Barn (Alkazar)

This den is an ideal area for children's imagination to go wild. It can be anything they want it to be! A house, a cave, a submarine. The possibilities are endless, just like the recycled plastic that it's made from. Brightly coloured and maintenance free this den is delivered flat packed with easy assembly instructions to save on delivery costs.

Cube Play Den

The cube den on its own is a simple space suitable for teaching, reading and relaxing, or for fun imaginative role play. The trellis and planter module is sold separately and simply fixes on the side of the den transforming it into a beautiful garden space where kids can grow climbing plants up the side.

Exploration Tables

These are modular exploration tables suitable for gardening, sand or water play.

The recycled plastic frame is hygienic, easy to clean, does not rot or attract mould and the trays are removable. Suitable for both Indoor or Outdoor Classrooms for Nurseries and Playgroups. Sold individually or as a set of 4 modules. A sink module option is available for water play.

Kitchens

A complete set of children's brightly coloured plastic kitchen units. Suitable for use indoors or outdoors for pretend chefs or housewives to imagine together.

Units include a sink, washer, cooker and fridge sold individually or as a set. Double sized cookers and sink units are also available.

Picket Fencing

This fencing is great for dividing up spaces in playgrounds or classrooms and for special events. There are 2 versions sold in individual packs of 8 fence pales, or a set of 5 packs (40 pales.)

HDPE Version: Made from high density polyethylene in red, yellow, blue and green or a combination of colours.

Polystyrene (Plastic Wood) Version: Made from recycled CD cases available in oak and mahogany. Looks like wood but will not rot, fade or need painting.

Adventure Ship

This robust, 100% recycled plastic boat with never rot, warp or crack and there are no splinters for little fingers.

Easily turned into a sand pit - just add sand.

Perfect for adventures sailing along the Mediterranean on a treasure hunt.

Our exciting recycled plastic pirate ship accessories can be added to enrich the experience.

Pirate Ship Accessories

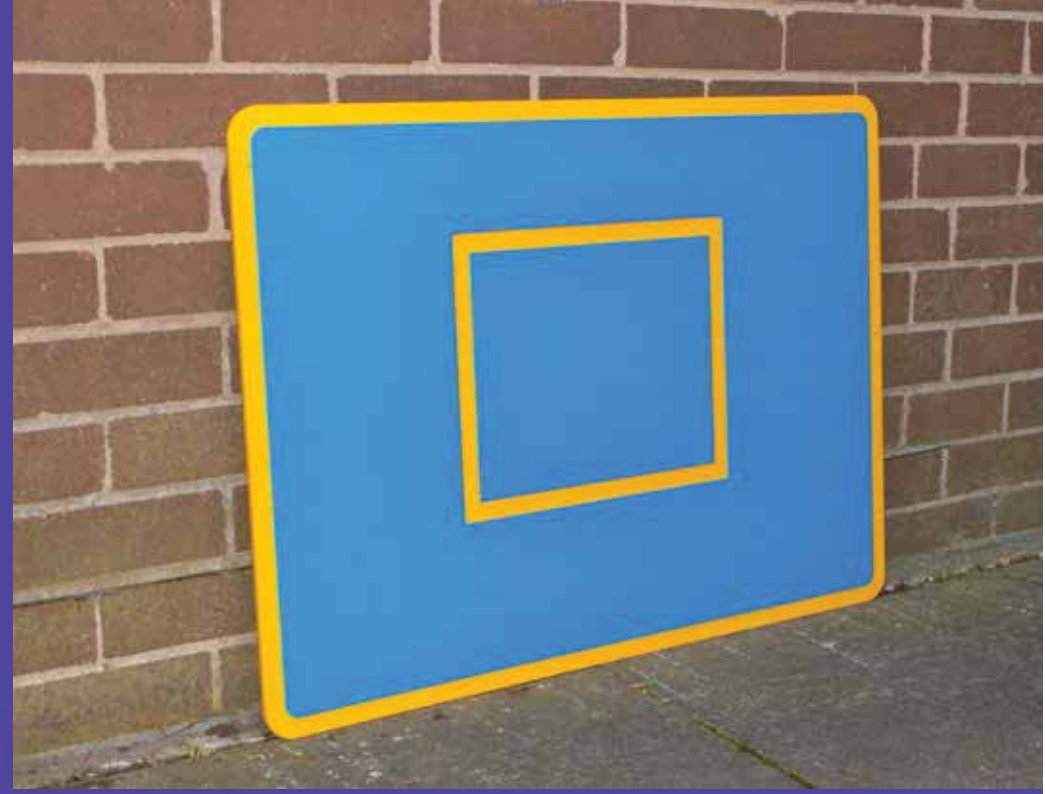

Made from solid two colour high density polyethylene (up to 80% recycled plastic) these accessories can give life to play boats, sand pits, or playgrounds. Attach to sheds, wendyhouses or walls. Hygienic, easy to clean and UV stable so will not fade in the sun. Suitable for indoor or outdoor use.

Basketball Backboards

Our personalised basketball backboards can have bespoke engraving added to promote your school, team or business.

Made from recycled high density polyethylene they are completely weather resistant, UV stable and easily cleaned.

Planters

These no maintenance recycled plastic planters will never rot.

Being raised planters they allow gardening without bending down and are easily accessed even from a wheelchair. Where there is no garden or other plantable facility children can still learn all about growing flowers, seeds or vegetables in a convenient contained area.

Available in mahogany, oak or multicoloured in square, rectangular or cradle shapes.

Raised Beds

Wooden raised beds need to be maintained and replaced frequently, whereas our recycled plastic raised beds are not only Eco-friendly, but never rot and need no maintenance at all!

They will last for decades. Our deluxe raised bed (bottom right) provides ample seating round the edge for children during gardening lessons. Available in oak, mahogany, black and nut brown.

HAHN Composter Type 650

Made from 100% recycled mixed plastic lumber this composting box confines the compost pile in a neat and tidy way. With wide slats to allow air to circulate through the sides resulting in better quality compost.

It will not rot, attract mould or splinter and will never need painting or replacing year after year.

Borg Composter

The Borg are a Star Trek race of scavengers, famous for recycling... This versatile composter is named after them, and has an expandable modular design. Delivered flat packed, it is easy to assemble in a few minutes. Made entirely from recycled plastic of course so it will never rot.

Sand and Water Train

COMING SOON!

This brand new sand and water play train is available from June 2014. The printed words “sand” and “water” on the side of the carriages help children learn by association while they play. The train has a space to store all their sand and water toys and a steering wheel for pretend driving.

Sand and water trays are removable. Sold as a full train set of 1 train and 2 carriages with a choice of sand, water or blank without etched words. Alternatively each item can be sold individually.

Alphabet Letters and Numbers

COMING SOON!

Solid High density Polyethylene letters and numbers. Great for signs, displays and teaching aids. Can be permanently attached to walls or fencing with no possibility of rot, mould or faded colours.

Letters are sold in 2 heights of 600mm or 400mm high and separate packs of lowercase sets of 13 A-M or 13 N-Z or 26 A-Z or Uppercase sets of 8 A-H, 9 I-Q, 9 R-Z or 26 A-Z. Numbers are in heights of either 600mm or 300mm.
